DETAILED ACTION

Response to Amendment

The examiner is in receipt of applicant's response to office action mailed 12/10/2008, which was received 3/9/2009. Acknowledgement is made to the amendment to claims 24,25,27. Applicant's remarks and amendment were persuasive, therefore, the following reasons for allowance are provided below:

Reasons For Allowance

The following is an examiner's statement of reasons for allowance of independent claim 24.

Claim 24 describes a method for identifying availability of a storage locker based on a controller identifying that a payment has been made inter alia, the control system automatically releases from assignment to the customer the purchase pick-up point in response to payment by the customer, and assigns the purchase pick-up point to another customer as soon as the purchase pick-up point is released.

Discussion of pertinent art:

Art Unit: 3625

(i) US Patent to Turner (US 6,862,576) teaches a method for providing a code to a user and a delivery person to identify when a locker has been accessed and when it is available. Turner, however does not teach or suggest that the means for identifying the availability of the locker is based on a payment being made by the customer.

(ii) Dai-Ichi, teaches using electronic payment to pick up product from a locker, Dai-Ichi, however, fails to render the application above mentioned limitations obvious because it does not teach releasing the locker based on the payment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
